Every Life is Precious – Welsh Pony Rescue & Rehoming Charitable Trust

Welsh Pony Rescue & Rehoming Charitable Trust is a small charity, rescuing, rehabilitating and rehoming equines, mainly from the Welsh Commons, but also many that are unwanted & suffering due to abandonment or a change of circumstances of the owner.

Despite limited funds we managed to rehome another 100 ponies in the last year, castrating around 40 more unwanted colts & stallions. We also made National news headlines in the Summer droughts of 2018 by ensuring the watering holes on the Commons were regularly replenished, saving the lives of over 200 feral ponies.

We aim to continue to reduce the numbers of semi-feral ponies on Gelligaer & Cefn Golau Commons to a manageable amount and this funding would help us greatly. There are still many abandoned ponies around South Wales and we continue to tackle the problem.

The charity is run solely by volunteers, ponies are usually transported by our Chair, using her own vehicle and a cattle box.

The grant would enable us to purchase a new Horsebox, tractor, trailer, pen & crush.

- A new horsebox would enable volunteers to transport ponies from the point of rescue and between charity premises.
- A tractor & trailer would be extremely useful to transport rescue equipment over rough terrain, it would also be a massive help to move other equipment, hay and water around the yard. All movement of hay and water is currently manual and we have no mains water.
- A crush & pen would increase the safety in handling feral ponies at the yard. We currently have to use an old horse trailer as a crush and the pen we use is damaged.

Winning this grant would be a dream come true for the Charity & hardworking volunteers.
